

MaintainFlow AG

Run your whole farm from your pocket

Crops & livestock, one simple app.

Stop losing records in notebooks and memory. Track your fields **and** your animals, see exactly where your money goes, and build a record that helps you get finance — all on your phone, even with no signal.

Free · Works offline

Track your livestock

Herd health & vaccination reminders, weights, births, deaths & sales — cattle, goats, sheep, poultry & pigs.

Control your costs

Log expenses, see cost per hectare and where the money goes — plus local market prices.

Manage your crops

Field work orders, spray & fertilizer schedules, re-entry windows and weather & frost alerts.

Get loan-ready

Turn your records into a credit-readiness report you can take to lenders and co-ops.

Get it in 30 seconds

1. Scan the code with your phone camera
2. Tap **Add to home screen** — it opens like an app
3. Add your first field or herd and start logging
