

MaintainFlow AG

Everything your farm needs, in one simple app.

Crops · Livestock · Money · Maintenance — built for African farmers, works offline.

WHAT WE HELP YOU DO

Crop Management

Fields, work orders, spray & fertilizer schedules with safe re-entry windows.

Livestock Management

Herds, health & vaccination reminders, weights, births, sales & production.

Smart Schedule

Every task, health check & service due-date in one simple timeline.

Cost & Money Tracking

Log expenses, see cost per hectare, and track every pula you spend.

Yield & Herd Analytics

Season-by-season trends across crops & livestock — farm smarter.

PRO

Lender-Ready Reports

Turn your records into a credit-readiness report banks & co-ops accept.

PRO

Equipment Maintenance

Service reminders so your tractor, pump & sprayer never let you down.

Input Marketplace

Seed, fertilizer, chemicals & services — find suppliers in one place.

Also includes **weather & frost alerts**, **offline access** & **automatic backup** across your devices.

Free to start · Works offline · No app store needed

Get started in 30 seconds

1. Scan the code with your phone camera
2. Tap **Add to home screen** — it opens like an app
3. Add your first field or herd and go

No download needed · agri.maintainflow.pro
